Art Unit: 1712

The following is an examiner's statement of reasons for allowance:

The specification (filed February 10, 2006) on page 2, paragraph [0006] discloses mica as a fluid control loss additive for decreasing fluid loss at the expense of high leak-off, or spurt. Paragraph [0010] describes the objective of the claimed subject matter for fluid loss control additives "which reduce fluid loss, especially spurt, during treatment."

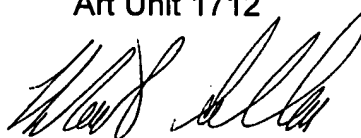

Paragraph [0025] on page 5 lists the claimed species of dispersed particles without the excluded mica. Based on the descriptions of the inferior prior art fluid loss control additives with respect to spurt, the exclusion of mica named as a species of inferior fluid loss control additive is implicitly supported. Accordingly, the 35 U.S.C. 103(a) rejections Joyce et al. Patent Nos. 5,929,002 in view of either PCT Publication Nos. WO 99/50530 or WO 2003/56130 wherein mica is employed have been overcome.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled

"Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert Sellers whose telephone number is (571) 272-1093. The examiner can normally be reached on Monday to Friday from 9:30 to 6:00. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
